CMS Platforms

- PHP / WordPress / ACF
- Headless WordPress

LANGUAGES

Ukrainian	Native
English	Intermediate (B1)
Russian	Native

SUMMARY

Full-stack TypeScript engineer with 9+ years of commercial experience delivering 30+ production launches for international clients. Specialize in Vue/Nuxt and React/Next.js interfaces backed by Node.js and PostgreSQL, with end-to-end experience across authentication, payments, webhooks, third-party APIs, automated testing, and headless CMS integrations.

EXPERIENCE

Full-Stack Engineer

Jun 2021 - Present

The Cookie Labs · Full-time · Remote

- Delivered 30+ production launches for international clients across fundraising, e-commerce, editorial, and product platforms.
- Develop reusable Vue/Nuxt and React/Next.js interfaces, including accessible customer journeys and third-party integrations.
- Implement and test PostgreSQL-backed Node.js services for authentication, payments, webhooks, and headless WordPress; package and deliver projects with Docker and GitHub Actions.

Frontend Engineer

Nov 2019 - Oct 2021

DMD Binary · Part-time · Remote

- Delivered customer-facing React and Vue flows for raffle, digital wallet, e-commerce, booking, and healthcare products.
- Integrated REST APIs, authentication, and external services; improved legacy application stability by normalizing inconsistent API responses and resolving cross-browser defects.

Full-Stack Engineer (WordPress)

Sep 2018 - Aug 2019

Boot Solutions · Full-time

- Built editor-friendly WordPress platforms with reusable PHP themes and structured ACF content models for non-technical teams.

Full-Stack Engineer (WordPress)

Jun 2017 - Aug 2018

JetBrain · Full-time

- Developed responsive PHP/WordPress websites and Vue interfaces connected through the WordPress REST API.

SELECTED WORK

Donation storefronts & payment journeys

Implemented customer-facing donation catalogs and payment flows, connecting headless WordPress and external services through REST APIs.

TypeScript · Payments · WordPress REST API
